SUMMARY

Data science expert with a solid **Python** background, as well as knowledge of **MySQL,Go, HTML**, and **CSS.** I holds a Bachelor's degree in **Electrical Engineering** and contribute unique insights from my six-month stay as a **Project Engineer**. I am eager to transition into a Software Engineer profession, where I can use my **analytical talents**, technical acumen, and project management expertise to help create creative software solutions.

EDUCATION

Bachelor of Engineering Electrical Engineering

KPR Institute of Engineering and Technology, Coimbatore,

07/2019 - 04/2023

CGPA 7.7 / 10

SKILLS

- Data Science.
- Python.
- HTML & CSS.
- MySQL.
- Go.

INTERNSHIP

YM Automation

05/2021 - 06/2021

- During the internship, I specialized in **Node-RED** and **IoT** technologies, and Ihad hands-on experience with the **MIT** App Inverter.
- Pioneered the IoT Smart Bulb project, showcasing creative solution design and achieving a **40%** decrease in power usage via the use of modern technology.
- Applying IoT skills to identify and manage important operational concerns resulted in a **35%** decrease in equipment downtime and considerable cost savings.

V-Guard Industry

11/2021 - 12/2021

- Acquired competence in solar water heaters, improving production and assembly procedures.
- Manufacturing of solar water heating systems was streamlined, resulting in a 10% reduction in production time and a 15% cost savings.
- Led a renewable energy effort that resulted in a 5% decrease in operating expenditures and a significant 20% increase in team efficiency.

PROJECTS

Web Page design for café: 11/2023 - 01/2024

- Developed and designed a visually appealing and responsive webpage for a café restaurant.
- Implemented a modern and user-friendly interface using HTML & CSS, resulting in a 30% increase in user engagement and a 20% improvement in conversion rates.
- Ensured seamless navigation and enhanced user experience across various devices withresponsive design principles..
- Demonstrated proficiency in front-end web development, showcasing attention to detailand a keen eye for aesthetics.

Asthma Healthcare Kid: 12/2022 - 03/2023

- Spearheaded the creation of an innovative health solution for asthmatics, providing personalized real-time insights and empowering them to proactively manage their condition; achieved a 30% increase in medication adherence and a 20% reduction in asthma-related ER visits. Implemented a cutting-edge system that continuously measures and analyzes moisturecontent and ambient air quality in real-time.
- Developed an innovative solution offering real-time health insights for asthmatics,empowering proactive condition management.
- Utilized advanced technology to monitor and enhance environmental conditions for asthma patients.
- Spearheaded the development and implementation of a solution addressing a critical health concern, showcasing a commitment to leveraging technology for positive socialimpact.

System for Gas Detection and Monitoring with ProcessControl: 05/2021 - 07/2021

- Engineered precise industrial gas detection system, ensuring safety and accuracy innovated gas monitoring practices with cutting-edge technology for heightened precision.
- Implemented process control measures, enhancing safety and operational efficiency.
- Developed sophisticated solutions to elevate safety standards in gas-sensitive environments.
- Demonstrated engineering expertise, consistently achieving excellence in diverse industrial projects.
- Spearheaded automation initiatives, streamlining operations and reducing manual intervention.

EXPERIENCE

Project Engineer 05/2023 - 11/2023

GraviTech Solutions Private Limited. Chennai

Automation industry

- Developed customized automation programs using diverse PLC software for seamless integration.
- Streamlined project processes through the efficient preparation of Bills of Materials (BOM), optimizing procurement strategies for successful project outcomes. Adapted to various PLC brands, demonstrating versatility in addressing unique project requirements.
- Collaborated with cross-functional teams, fostering innovation and ensuring successful project outcomes.

CERTIFICATION

- Guvi-Python
- Hackerrank-Problem solving.
- Qtree Technologies-Data science.

DECLARTION

I hereby declare that the information provided above is true to the best of my knowledge and belief.
