PROFILE SUMMARY

Full Stack Developer with hands-on experience in designing, developing, and maintaining scalable web applications. Proficient in Ruby, Ruby on Rails, Python, JavaScript, React.js, HTML, CSS, PostgreSQL, and SQL, with strong expertise in both front-end and back-end development. Experienced in building RESTful APIs, database design, and implementing responsive user interfaces. Skilled at collaborating in fast-paced, team-oriented environments, with strong communication, analytical, and problem-solving abilities. Passionate about delivering high-quality software solutions and continuously learning new technologies.

SKILLS

Programming Languages –HTML & CSS, JavaScript, SQL, Python, Ruby
Framework / Library - Bootstrap, Tailwind CSS, Ruby on Rails, Turbo (Hotwire)
Version controller -Git, GitHub
Database – PostgreSQL, MYSQL, MongoDB
Developer Tools -- VS Code, PyCharm, Jupyter Notebook
Other – REST APIs, Responsive Design

EDUCATION

KPR Institution of Engineering and Technology , Coimbatore	CGPA: 7.7 / 10
Bachelor of Engineering in Electrical and Electronic	June 2019 - April 2023

EXPERIENCE

Freelancer – Full Stack Developer	June 2025 – December 2025
Interloid Technologies	January 2026 – June 2026

INTERNSHIP EXPERIENCE

Genpact India Private Limited, Chennai	July 2024 - November 2024
Gravitech Solutions Private Limited, Chennai	May 2023 - November 2023

CERTIFICATIONS

Front-End Developer - Hacker rank	February 2025
Data science - Qtree Technologies, Coimbatore	April 2024

PROJECT

Kanban Task Management Application	May 2026 – June 2026
---	----------------------

Technologies: Ruby on Rails, PostgreSQL, JavaScript, HTML, CSS, Tailwindcss, Turbo (Hotwire) Git, GitHub

- Developed a Kanban-based task management application that enables users to create, organize, and track tasks across customizable workflow stages.
- Implemented drag-and-drop functionality for moving tasks between columns such as To Do, In Progress, and Completed.
- Built secure user authentication and authorization features to manage user-specific boards and tasks.
- Developed functionality for task creation, updates, status tracking, and data management.
- Utilized PostgreSQL for efficient storage and management of users, boards, and task data.
- Designed a responsive and intuitive user interface to improve task visualization and productivity.
- Applied Agile and Kanban principles to support efficient workflow management and team collaboration.

E-Commerce Web Application

June 2025 – December 2025

Technologies: HTML, Javascript, TailwindCSS, React.js, MongoDB, Git, GitHub

E-Commerce Web Application

- Developed a full-stack e-commerce web application from concept to deployment, implementing both front-end and back-end functionality.
- Built responsive and user-friendly interfaces for product browsing, shopping cart management, user authentication, and checkout workflows using React.js, HTML, CSS, and Tailwind CSS.
- Developed RESTful APIs and server-side business logic for product management, order processing, and user account management using Node.js.
- Designed and managed MongoDB databases for products, customers, orders, and inventory data.
- Implemented secure authentication and authorization mechanisms to protect user accounts and application resources.
- Collaborated directly with the client to gather requirements, deliver features, and troubleshoot issues.
- Utilized Git and GitHub for version control and project management

Booking Service Platform

March 2025 – May 2025

Technologies: Python, Flask, HTML, CSS, Bootstrap, MongoDB, REST API, Render

- Developed a vehicle service booking platform using Flask, enabling users to schedule General, Speed, and Custom vehicle services through dynamic booking forms.
- Implemented secure user authentication and authorization for account registration, login, and booking management.
- Designed and integrated RESTful APIs for handling service requests, user data, and booking operations.
- Utilized MongoDB for efficient storage and management of user profiles, bookings, and service-related data.
- Built a responsive and user-friendly interface using HTML, CSS, Bootstrap, and Jinja templates to ensure a seamless experience across devices.
- Deployed the application on Render and maintained application performance and reliability in a production environment.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
